

# CLEAN WAVE—MOMENT 2

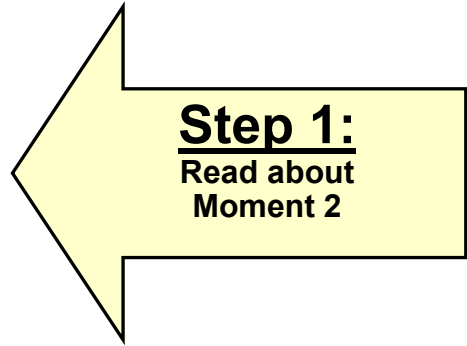

## Hand Hygiene—4 Moments Campaign

### Moment 2 - Before a clean or aseptic technique

**Goal:** Whenever you do a clean or aseptic task you perform Hand Hygiene.

- Moment 2 tasks usually follow moment 1  
You may be able to combine moment 1 and moment 2 and do hand hygiene once as long as you do not touch anything in between

**Healthcare Environment:** Environment beyond the resident's immediate area. In a single room this is outside the room. In a multi-bed room this is everything outside the resident's bed area
