

CLEAN WAVE—MOMENT 3

Hand Hygiene—4 Moments Campaign

Moment 3 - After blood and body fluids exposure risk

Goal: Whenever you do a task that could have exposed you to blood and/or body fluids, non-intact skin, and/or mucous membranes, you perform hand hygiene.

- Remember that after any of these activities, gloves must be removed and hand hygiene performed prior to moving to the next activity.

Why is this moment so important? Helps protect residents, staff and visitors from harmful microorganisms. Helps to prevent environmental contamination with harmful microorganisms

Step 1:
