

COVID-19 Staff Screening Tool

Note: Most recent updates are included in blue.

Staff are required to self-screen for COVID-19 symptoms and exposure prior to reporting for work.
Random audits will be completed and staff who report to work while ill will be sent home.

| Symptoms – Do you have: | |
|--|--|
| One symptom in Category A? | Two symptoms in Category B? |
| <input type="checkbox"/> Fever > 38 or subjective fever/chills <input type="checkbox"/> cough <input type="checkbox"/> sore throat/hoarse voice <input type="checkbox"/> shortness of breath/breathing difficulty <input type="checkbox"/> loss of taste or smell <input type="checkbox"/> vomiting or diarrhea more than 24hrs | <input type="checkbox"/> runny nose <input type="checkbox"/> muscle aches <input type="checkbox"/> fatigue <input type="checkbox"/> conjunctivitis <input type="checkbox"/> headache <input type="checkbox"/> skin rash of unknown cause <input type="checkbox"/> nausea or loss of appetite |
| <p>Note: Screening is intended to exclude symptoms related to chronic illness or seasonal allergies.</p> | |
| <p>Note: If you have one Category B symptom and have not been exposed to COVID-19, you do not need to isolate and be tested for COVID. Instead, follow the usual feeling sick protocols.</p> | |

| Exposure - In the past fourteen days, have you: |
|--|
| <input type="checkbox"/> Returned from travel outside of Manitoba / have a household contact who has returned from travel outside Manitoba*? <i>Note: if the household contact is fully vaccinated and asymptomatic, or if you are asymptomatic and can isolate yourself from the asymptomatic traveller, then you can work.</i> |
| <input type="checkbox"/> Had close contact with a confirmed case of COVID-19, while not wearing required PPE and/or not practicing physical distancing (6 feet/2metres)*? <i>Note: Fully vaccinated staff who have been exposed to a positive case may continue to work if they are asymptomatic. If you develop any of the symptoms from Category A or B, you must self-isolate and contact your site OHN or the provincial COVID line.</i> |
| <input type="checkbox"/> Had laboratory exposure working directly with biological specimens that contain COVID-19 while not wearing required PPE*? |
| <input type="checkbox"/> Been diagnosed as COVID positive and not deemed “recovered” by Public Health? |
| <input type="checkbox"/> Been directed to self-isolate? |
| <input type="checkbox"/> Had a household member who is symptomatic, or who is a close contact to a positive case and instructed to self-isolate by public health*? |
| <p>*Fully vaccinated staff (those who have received both doses [any combination] of an approved two dose COVID-19 vaccine [AstraZeneca, Pfizer, Moderna], OR a single dose of an approved single dose COVID-19 vaccine [Janssen/Johnson & Johnson] with more than 14 days having passed since the second dose [or approved sole dose] was received) are exempt from this question provided they are asymptomatic.</p> |

- If you answered “no” to all of the above, you may **proceed to work**.
- If you answered “yes” to any of the above questions, your screening result is positive and you must:
 - Notify your manager (or designate) immediately. They will advise you of next steps.
 - You may not be permitted to go into work today.
 - Self-isolate and maintain physical distancing from individuals within your home until advised otherwise.
